Marlboro', N. H., Feb. 20, 1915.

REPORT OF FIREWARDS

—o—

The Firewards of Marlboro' would make the following report:

The last year has been a very fortunate year for fires, three alarms, only having to respond to two. One at Mr. Seaver's mill which was destroyed. Two at Laundry, only responded to one, one all out before department got started.

The Companies are in good condition. We put in a new Cement floor at a cost of \$120.00. Also put water in, taken from John Vigneault spring, something very much needed in the house.

Respectfully submitted,

C. E. WARD	}	Firewards of Marlboro'.

STREET LIGHTING COMMITTEE

—o—

Your Street Lighting Committee would make the following report for the year 1914.

The usual agreement was signed for \$16.00, for all night service.

We have not had quite as good service as usual but have the promise of better next year, which we expect will compensate some for the past.

Respectfully submitted,

W. McROY,
L. G. HILDRETH,
E. W. ATWOOD,

VETERANS ASSOCIATION

Treasurer's Report For 1914.

Received from Town,		\$60 00
Expenses		
9 dozen Flags,	\$3 96	
Team to set Flags,	1 00	
61 Potted Plants,	10 50	
Filling Vase,	2 25	
Teams for Decoration day,	2 00	
Town Hall,	2 00	
Expense of Schools,	11 29	
Band,	25 00	
Car to Keene,	2 00	

\$60 00

Attest,

G. H. SMITH, Treasurer.

BOARD OF HEALTH

—o—

Another year of healthy conditions we have to report in town.

Less complaints have been received by your Board than usual and those have been looked after and our suggestions have been given attention. We were surprised to read quite recently, that the death-rate in New Hampshire was the highest per one thousand inhabitants of any State in the Union, and our town is nearly up to the average in the state, so great care should be taken to have everything as sanitary as possible as regards garbage cans and cess-pools.

We would suggest improvements in the conditions at No. 2 School-house, as regards the Water-Closets.

W. H. ALDRICH.	}	Board of Health
D. W. TENNEY,		
E. P. RICH ARDSON,

FROST FREE LIBRARY REPORTS

SECRETARY'S REPORT

The annual meeting of the Trustees of FROST FREE LIBRARY, was held in the library building Sept. 9, 1914, at 3 o'clock P. M.

Prayer was offered by Rev. Wm. Weston, of the M. E. church. In the absence of the Secretary, Rev. John Kimball was elected Secretary Protem.

Report of the Secretary M. A. Pease, was read and approved.

The following officers were elected for the ensuing year:

President,	LOWELL C. FROST
Vice-President,	REV. S. H. MCCOLLESTER
Secretary,	M. A. PEASE
Treasurer,	LEVI A. FULLER
Librarian,	MRS. CARRIE T. K. WHITNEY
Auditor,	REV. S. H. MCCOLLESTER
Executive Committee,	Rev. S. H. McCollester,
	Rev. A. E. Gregg, Rev. Wm. Weston, Rev. John
	Kimball, Mr. Robert L. Whitney, Mr. Merrill
	Mason.

The report of Librarian was read and accepted

No further business appearing the meeting was adjourned.

M. A. PEASE, Secretary.

LIBRARIAN'S REPORT

To the President and Trustees of FROST FREE LIBRARY: The Librarian submits the following report:—

The circulation during the past twelve months has decreased noticeably. The total number of books loaned was 6028; about 1500 less than two years ago and 500 less than last year.

The magazine circulation holds its own, 3131 magazines having been issued this year.

Mrs. Arthur Gilman presented "A Man's Man" and H. Addington Bruce, gave his book, "Scientific Mental Healing," Rev. A. E. Gregg presents The Outlook, Mrs. S. I. Carter, the Housewife, and the Librarian, To-Day's magazine, Peoples Home Journal, and Saturday Evening Post. Miss Mabel Holt, has placed in the library a most interesting piece of basketry, a Navajo Indian water bottle from Arizona.

REPORT OF DESK RECEIPTS

Cash on hand Sept. 10, 1913,	\$2 30
Sale of magazines,	6 50
Fines for the year,	21 60

Salary of Truant Officer	10 00
Salaries of Other District Officers,	43 50
Salary of Superintendent,	300 00
Repairs,	1,000 00
Insurance,	10 00
Money required for the support of schools,	\$4,000 00
For New Heating Heating Plant at No. 2 building,	\$1,200 00

CHAS. W. BUCKMINSTER,	} School Board of Marlborough
RAY H. PAGE,	
J. H. LAWSON,	

SCHOOL REPORT

To the Citizens of the Town of Marlborough:

In submitting this report to the Citizens of Marlborough, we shall strive to make clear the present conditions in the schools and our aspirations for the future.

IN MEMORIAM.

It is with feelings of especial pain that we refer to the decease of CLINTON COLLINS, Chairman of the Board of Education for 1914.

How well we all remember his intelligence, ever displaying so much thoughtfulness in his relations with teachers, pupils and parents. It has indeed been a heavy blow, and we scarcely know how to speak of consolation, but let us remember that light sometime will break through, and there will be a happy reunion in the Great Beyond.

MR. CHARLES W. BUCKMINSTER, was elected chairman of the board, RAY H. PAGE, secretary of the board and JOHN H. LAWSON, to fill the vacancy caused by the death of Mr. Collins.

To our great regret, Mr. Frank M. Rich, who had ably and conscientiously performed his duties as Superintendent of Schools, resigned at the end of the fall term to take a position as superintendent and principal of a Paterson, N. J. grammar school. However the schools were so well organized that our efficient corps of teachers made it possible for the work to advance without interruption.

The present standard of efficiency can be maintained only by keeping, as far as possible, the same corps of teachers from one year to another. Otherwise our

schools become but training centers for young women, who, after getting experience at our expense, leave for better positions. This is not fair to our pupils and not fair to the town, as a new teacher can not do her best work until she has been in the school for some time.

FINANCES.

A word of explanation regarding the financial standing of the district at the beginning of the year and the reason that it became necessary to borrow eight hundred dollars at the end of the fall term.

It has been the custom in the town to have only bills that have been paid and vouchers returned, audited and if there remained in the hands of the treasurer insufficient funds to meet bills they were left unpaid. This has been going on for a number of years and each year the board would endeavor to make up the deficiency by cutting down expenses instead of appropriating more money for the schools. Then expense would present itself or some bill of two or three years standing would come in and instead of decreasing the debt, it grew larger.

Last Spring we decided to pay all bills as far as the school funds would go and then either have the town raise more money or close the schools.

The following list gives what the district owed March 10, 1914:

Teachers' Salaries and Janitor,	\$359 85
Mileage,	45 52
Officers' Salaries,	113 00
Repairs,	29 19
Supplies,	383 02
Fuel,	38 25
Incidental Expenses,	289 10
	\$1,257 93

This policy has been adhered to through the school year by the board and on Feb. 20, 1915, when we closed the books, all bills were paid.

HIGH SCHOOL.

The dissatisfaction expressed by some of our citizens with our high school course has exerted an unfavorable influence on the school. While the discipline is good there is a lack of interest in the work which the principal attributes to this cause.

We feel confident that our present course is not suited to local conditions, however before making any change in the present course we wish to know the public sentiment, that we may make such changes as will have the indorsement of all who have the welfare of our high school at heart. We must consider not only what we, as individuals, may want for our boy or girl but what will be best for the entire town. This means the unselfish co-operation of all.

If we cannot maintain an approved four years' course, let us shorten the course and raise the standard of the work. As the Majority of our pupils finish their school work when they graduate from our high school it has been suggested that a practical rather than a college preparatory course be given. In this connection a course in agriculture might be considered.

GRADE WORK

Scholastic Work.

In all the grade rooms at the main building, the state course of study has been followed. More than usual emphasis has been laid this year upon writing. This is certainly needed in all our schools. Such excellent results were obtained in this field that several of the pupils were recognized for their good work by the Palmer Company.

During the first half of this year the seventh and eighth grade pupils were hampered for lack of a sufficient number of text books. At present this defect has been remedied.

In the same room such crowded conditions exist as to make it practically impossible to adequately prepare

the pupils for high school. These conditions should be remedied at once.

There was some trouble with discipline in the third and fourth and seventh and eighth grades with the coming of new teachers, but this defect has been remedied. However we cannot report the attitude of all toward teachers as courteous.

RECOMMENDATIONS.

The most urgent need of the grades at present is almost immediate relief of the crowded conditions in the fifth and sixth and seventh and eighth grade rooms.

Incomplete sets of books should be filled out immediately and certain helps to good teaching furnished.

Domestic Science and Manual Training have been taught by Post Graduate girls from the Keene Normal School. There are many good features in these courses and we realize their value but under present financial conditions we doubt the advisability of continuing them especially the Manual Training course. This course as taught by a young lady is of doubtful value. If, in the future, we can unite with near by towns and secure a trained man, we feel it would be advisable to teach this subject but not under present conditions. The proper handling of tools, instructions as to proper method of filing a saw or grinding a chisel is as important as to teach a boy how to make some small piece of furniture and this is not done as is evidenced by the condition of the tools.

OUR DISTRICT SCHOOLS.

We are pleased to note that the work in the outside schools is all we can expect. The teachers are greatly handicapped by having so many different grades to teach but this cannot be avoided.

The Lowellville school opened this fall after having been closed during the Spring term. Miss Ruth Wiswall is in charge here and is doing excellent work.

Mrs. Ella B. Hunt taught at the Webb school during the fall term. When she resigned Miss Frances Cushing was appointed in her place. We have had some difficulty in securing a teacher who would remain any length of time but now believe we have secured the right one and trust the board will be able to retain her services.

The Wallace school has been taught for three consecutive years by Miss Esther V. Fish. The improvement in work and the general spirit of the children show the advantage of keeping the same teacher from one year to another.

SANITATION.

Something should be done at once to correct the present sanitary, or rather very unsanitary conditions at the high school building. The windows on the side next the outbuildings cannot be opened during warm weather. Also some arrangement should be made for running water and sewerage in these buildings or better still remove the buildings and provide rooms in the basement where a modern system of sanitation can be installed.

BUILDINGS.

We have inspected all the buildings and find many repairs are necessary that if attended to at once will cost the town far less than if they are left for a year or two.

No. 1.

The building needs new shingles, ceiling, a new chimney and painting. If it is not shingled it will be useless to put in a new ceiling as the present roof leaks and in a short time a new ceiling would be in the same condition as the old one.

No. 2.

Painted outside, a room finished in the attic to relieve the present crowded condition, and something done about the heating system.

Our present system of hot air heating is a menace to the health of the children; this is especially true of

the furnace that supplies the heat in the high and intermediate school rooms. The gas from this furnace escapes into the heating pipes, unless the drafts are kept open. On going into these rooms in the morning the air is filled with this poisonous gas. Before the rooms can be used the windows have to be opened and a complete change of air made. This means cooling the rooms to such an extent that extra fuel is consumed.

Another bad feature of these furnaces is that the air which passes through them to be heated is taken from the basement where it is heated and goes to the rooms.

Imagine the condition of the air that comes from a crowded basement full of active children! It is not only full of dust, but also carbonic acid gas which is exhaled from the lungs of each child. Add to this the chance of spreading contagious diseases by the same means, and the necessity for an immediate change can readily be seen.

As the air passes through the furnace all traces of moisture are removed, making it dangerous to breathe as it leaves the throat and air passages of the lungs in a dry condition, thus making a child more susceptible to colds and lung troubles.

We would recommend that a Steam Heating Plant be installed. This will not only remove the bad conditions caused by our present system but would be a great saving in fuel as there would be but one fire instead of four as we now have.

Also, it would give more room in the basement. Present conditions are such that it is necessary for children from the first grade to the high school to spend the recesses in the same room and this in itself is poor policy. The play instinct differs so widely in children of different ages that it is an absolute necessity to provide separate rooms if we desire the best possible development of our children.

No. 3.

At number three we find the building needs a few minor repairs. We recommend that the school-house and woodshed be repainted and the latter shingled.

No. 4.

At number four we find the roof needs new shingles; the building should be painted and a few repairs made.

Very respectfully submitted,

School Board	{	CHARLES W. BUCKMINSTER
		RAY H. PAGE
		JOHN H. LAWSON

—o—

*To the Members of the School committee of the town
of Marlborough.*

Gentlemen:—

I am pleased to report that the discipline in the high school is fully as good this year as last. The interest of last year, however, has waned. This we believe is to be largely explained as a direct effect of the unfavorable agitation in town. But other reasons are present: such as the necessary use of improper text books without interesting outside reading, and the centering of much of the school work around the college preparatory course.

The text books are now fairly well cared for by means of a book cabinet.

If any change is made in the length of the high school course, it should be to two years. A change to three years is impracticable.

The high school course of study needs thorough overhauling.

A few sets of text books should be purchased and a considerable number of outside reading books. A number of sections of a sectional bookcase should be purchased for use in the main high school room. This

is necessary to keep the reference books in good condition.

THE BUILDING.

Through the efforts of students and teachers and the kindness of friends, the building has been thoroughly equipped with electric lights.

As the management of the building is becoming more centralized, the discipline in the halls and basement has improved.

A few recommendations are called for.

Some temporary arrangement should be made to attend to the large number of pupils in Miss Tarbox's room.

The school yard should be attended to. The first steps toward improvement in this line, are, the filling in of the hollow below the pond, and the equipment of the building with good eaves troughs. These things should be seen to before the opening of another school year.

Respectfully submitted,

FRED W. CHAPLIN, Principal.

REPORT OF SUPERVISOR OF MUSIC

*To The Board of Education:
Marlboro', N. H.*

At a Concert in the Town Hall, October 30, given by the School Children assisted by Miss Hart and the Temple Quartet of Keene, thirty-five dollars (\$35.) was cleared and used to procure new First and Intermediate Music Readers, pulished by Ginn & Company.

We feel that much of the interest and success in the subject of music this year can be attributed to these books.

A description of what the pupils are actually doing in this special work can not be given in this report but a visit on the part of the parents to any of our schools during a music lesson will convince them I am sure, that the teachers and supervisor are aiming to teach the subject thoroughly and in a way that will mould the taste and appreciation of the pupils for what is best in music.

It is hoped that Readers for the upper grades may be added an other year.

Respectfully submitted,

BLANCHE T. GANE.

FRED E. ADAMS, Town Clerk

SCHOOL WARRANT

THE STATE OF NEW HAMPSHIRE

To the inhabitants of the School District in the town of Marlborough, qualified to vote in district affairs:

You are hereby notified to meet at the Town Hall in said district on the 9th day of March 1915, at 2 o'clock in the afternoon to act upon the following subjects:

1. To choose a Moderator for the coming year.
2. To choose a Clerk for the ensuing year.
3. To choose a member of the School Board for the ensuing three years; one for two years, and one for one year.
4. To choose a Treasurer for the ensuing year.
5. To hear the reports of Agents, Auditors, Committees, or Officers chosen, and pass any vote relating thereto.
6. To choose Agents, Auditors and Committees in relation to any subject embraced in this Warrant
7. To see how much money the District will raise and appropriate for the support of Schools.
8. To see how much money the district will raise for repairs and insurance.
9. To see what sum of money the district will raise to pay the district officers.

10. To see what sum of money the district will raise for a superintendent.

11. To see if the district will raise a sum of money to continue a course in Manual Training, Drawing, and the Household Arts.

12. To see what sum of money the district will raise to install a new heating plant at No. 2 school house, or act in any manner in relation thereto.

13. To see if the district will vote to make any change in the present High School system, or act in any manner in relation thereto.

Given under our hands at said Marlborough this 17th day of February, 1915.

RAY H. PAGE,		of
J. H. LAWSON,		Marlborough

WARRANT FOR TOWN MEETING.

STATE OF NEW HAMPSHIRE

To the inhabitants of the Town of Marlborough, in the County of Cheshire in said State, qualified to vote in Town affairs:

You are hereby notified to meet at the Town Hall Building in said Marlborough on Tuesday, the ninth day of March next, at nine of the clock in the forenoon, to act upon the following subjects:

1.—To choose all necessary Town Officers for the year ensuing.

2.—To raise such sums of money as may be necessary to defray town charges for the ensuing year, and make appropriation of the same.

3.—To see what sum of money the Town will raise for the support of Electric Lights.

4.—To see what sum of money the Town will raise for Memorial day.

5.—To see what sum of money the Town will raise for Old Home day.

6.—To see if the Town will vote to raise the sum of fifty dollars for the extermination of Brown Tail Moths, or act in any manner in relation thereto.

7.—To see what sum of money the Town will raise to strengthen the Bridges to conform to the new ten ton Bridge law, or act in any manner in relation thereto.

8.—To see if the Town will vote to raise the sum of One hundred dollars for a series of Band Concerts to be given the coming summer or act in any manner in relation thereto.

9.—To see if the Town will vote to grant the use of Engine Hall to the Marlboro' Band for rehearsals for the ensuing year or act in any manner in relation thereto.

10.—To see if the Town will vote to exempt from taxation for a term of years any new Business established in the present buildings of the Marlboro Machine Company or act in any manner in relation thereto.

11.—To see if the Town will vote to change the name of Graniteville Cemetery or act in any manner in relation thereto.

12.—To see if the Town will vote to raise the sum of Two Hundred-Fifty Dollars to build a Cement wall on the hill in front of Graniteville Cemetery or act in any manner in relation thereto.

13.—To see if the Town will authorize the Selectmen to borrow money on the credit of the Town.

14.—To hear reports of the Town Agents, or Committees, or other Officers heretofore chosen or appointed and to pass any vote in relation thereto.

Given under our hands and seal this 20th day of February, in the year of our Lord, nineteen hundred and fifteen.
